XI. Organizational Practices

1. The Provision of Goods and Services to Persons with Disabilities

Primacare Living Solutions Inc. will make every reasonable effort to ensure that its policies, practices and procedures are consistent with the principles of dignity, independence, integration and equal opportunity by:

- Ensuring that all persons receive the same value and quality;
- Allowing persons with disabilities to do things in their own ways, at their own pace when accessing goods and services as long as this does not present a safety risk;
- Using alternative methods, when possible, to ensure that persons with disabilities have access to the same services, in the same place and in a similar manner;
- Considering individual needs when providing goods and services; and
- Communicating in a manner that considers the person's disability.

2. Assistive Devices/Person's Own Assistive Device(s)

Persons with disabilities may use their own personal assistive devices or technologies in an unrestricted manner in all areas of the residence, office, or building to which residents, family members, vendors, persons, volunteers, students, independent operators, contractors, subcontractors, or team members have access, except when subject to operator or resident safety and/or business integrity.

In cases where the assistive device presents a safety concern or where accessibility might be an issue, other reasonable measures will be used to ensure the access of goods and services. For example, open flames and oxygen tanks cannot be near one another. Therefore, the accommodation of a person with an oxygen tank may involve ensuring the person is in a location that would be considered safe for both the person and business. Or, where elevators are not present and where an individual requires assistive devices for the purposes of mobility, service will be provided in a location that meets the needs of the person.

3. Guide Dogs, Service Animals and Service Dogs

A person with a disability that is accompanied by guide dog, service animal or service dog will be allowed access to premises that are open to the public unless otherwise excluded by law. "No pet" policies do not apply to guide dogs, service animals and/or service dogs.

Food Service Areas:

A person with a disability that is accompanied by guide dog or service dog will be allowed access to food service areas that are open to the public unless otherwise excluded by law. Other types of service animals are not permitted into food service areas due to the *Health Protection and Promotion Act, Ontario Regulation 562 Section 60*.

Exclusion Guidelines:

If a guide dog, service animal or service dog is excluded by law (see applicable laws below) Primacare Living Solutions Inc. will offer alternative methods to enable the person with a disability

to access goods and services, when possible (for example, securing the animal in a safe location and offering the guidance of an employee).

Dog Owners' Liability Act, Ontario: If there is a conflict between a provision of this Act or of a regulation under this or any other Act relating to banned breeds (such as pit bulls) and a provision of a by-law passed by a municipality relating to these breeds, the provision that is more restrictive in relation to controls or bans on these breeds prevails.

Recognizing a Guide Dog, Service Dog and/or Service Animal:

If it is not readily apparent that the animal is being used by the person for reasons relating to his or her disability, Primacare Living Solutions Inc. may request verification from the person.

Verification may include:

- A letter from a physician or nurse confirming that the person requires the animal for reasons related to the disability;
- A valid identification card signed by the Attorney General of Canada; or,
- A certificate of training from a recognized guide dog or service animal training school.

Care and Control of the Animal:

The person that is accompanied by a guide dog, service dog and/or service animal is responsible for maintaining care and control of the animal at all time.

Allergies:

If a health and safety concern presents itself for example in the form of a severe allergy to the animal, Primacare Living Solutions Inc. will make all reasonable efforts to meet the needs of all individuals.

4. Support Persons

If a person with a disability is accompanied by a support person, Primacare Living Solutions Inc. will ensure that both persons are allowed to enter the premises together and that the person is not prevented from having access to the support person.

There may be times where seating and availability prevent the person and support person from sitting beside each other. In these situations, Primacare Living Solutions Inc. will make every reasonable attempt to resolve the issue.

In situations where confidential information might be discussed, consent will be obtained from the person, prior to any conversation where confidential information might be discussed.

5. Notice of Disruptions in Service

Service disruptions may occur due to reasons that may or may not be within the control or knowledge of Primacare Living Solutions Inc. In the event of any temporary disruptions to facilities or services that persons with disabilities rely on to access or use Primacare Living Solutions Inc.'s goods or services, reasonable efforts will be made to provide advance notice. In some circumstances such as in the situation of unplanned temporary disruptions, advance notice may not be possible.

In the event that a notification needs to be posted, the following information will be included unless it is not readily available or known:

- Goods or services that are disrupted or unavailable
- Reason for the disruption
- Anticipated duration
- A description of alternative services or options

Notifications Options:

When disruptions occur, Primacare Living Solutions Inc. will provide notice by:

- Posting notices in conspicuous places including at the point of disruption, at the main entrance and the nearest accessible entrance to the service disruption and/or on the Primacare Living Solutions Inc. website;

 - **People with hearing loss:** Attract the person's attention before speaking; ensure you are in a well-lit area where the person can see your face and read your lips; reduce background noise or move to a

quieter area; ask if another method of communicating would be easier (i.e., using a pen and paper).

- **People with vision loss/impairment:** Do not assume the individual cannot see you; identify yourself when you approach the person; ask if they would like you to read any printed material out loud to them; offer your elbow to guide them if needed, offer to expand print material.
 - **People with learning disabilities:** Provide information in a way that considers the person's disability; be patient.
 - **People with speech or language impairments:** When possible, ask questions that can be answered with "yes" or "no"; do not interrupt or finish the person's sentences; be patient.

 - 7) Where people with disabilities are accompanied by a support person (i.e., personal support worker, volunteer, family member, or friend), take your lead from the person or the person requiring your services.
 - 8) Notify Manager or designate about all accessibility requests for public emergency procedures, plans, public safety information, accessible formats, and communication supports for persons with disabilities in a timely manner.
